Principal's Message

Our District lies at the heart of the Santa Cruz Mountains and benefits from an active and engaged community. In the spirit of this community, our school has developed strategies for providing an excellent education that nurtures the whole child.

Parental Involvement

Parents are encouraged to, and do, take an active role in school leadership and programs. CT English Middle School has a very active Home and School Club and equally active School Site Council. Our foundation, the Loma Public Education Fund, and our Community Foundation keeps all community members apprised of school activities while they actively fundraise for specific programs. Parents assist in extracurricular activities including sports, community service clubs, operating a school lunch program, and volunteer in the classroom.

For more information on how to become involved, please contact CT English Middle School Home & School Club President, Jill Logar at (408) 353-1708.

School Safety

The design of C.T. English Middle School allows for excellent supervision of students throughout the school day. Teachers, administrators, and staff supervise students 20 minutes before and after the instructional day. Teachers and office staff ensure that students are released only to parents and/or other responsible adults. An on-site before- and after-school care facility is located on campus as an option for working parents. In addition, the on-campus volunteer Sheriff's Office frequently provides assistance with parking lot traffic during drop-off and pick-up times. All campus visitors must sign in and out and are closely monitored in their work on campus and with students. The School Safety Plan was reviewed near the beginning of the school year by a joint K-8 committee.

The School Safety Plan was last reviewed, updated, and discussed with the school faculty on October 17, 2009. Key elements of the plan include monthly safety drills, crisis intervention plans, and insert other details.

Professional Development

All CTE teachers are fully credentialed and teaching in appropriate grade levels and subjects. Grade level/departamental teams meet frequently to ensure cohesive, consistent lessons among classes. Wednesdays are minimum days to allow teachers to collaborate on specific topics and with colleagues. Minimum days are also used for staff development in the areas of math, writing and technology, and areas determined by a careful examination of student assessment data. Teachers have done an excellent job of seeking professional development opportunities individually and as grade level teams. In addition to the weekly minimum days, not less than three days per year are allocated to on site staff development and articulation based on student data and teacher surveys.

For the 2006-07 and 2007-08 school years, twelve days were dedicated for professional development each year. In 2008-09, we dedicated three days for professional development.

Mission Statement:

Our schools are the center of our community and the hub of local activity. Community involvement and commitment engender a positive and nurturing climate. Here, our students develop a sense of belonging, a spirit of community, a desire for excellence and a lifelong love of learning. Education in the Loma Prieta Joint Union Elementary School District is a team approach based on mutual respect. Our team is composed of staff, parents, students, and members of the community working together to achieve academic excellence.

Enrollment and Demographics

The total enrollment at the school was 153 students for the 2008-09 school year.

"Parents are encouraged to, and do, take an active role in school leadership and programs."

Textbooks and Instructional Materials

All textbooks are adopted from State-approved lists and are consistent with the Curriculum Frameworks adopted by the State Board of Education. Every child has their own textbooks and instructional materials to use in class and to take home. Printed and digital instructional materials are available to English Learners.

School Facilities

Our community passed Measure K in 2002, a bond providing funds for several projects including the building of a new school. We took possession of the new building in October 2006. The building is in excellent repair.

This new school had multiple inspections by many agencies and passed them all. A few minor problems were quickly corrected. The condition of the facility is exemplary.

C.T. English Middle School has 10 classrooms, eight of which are used for regular classroom teaching, one is used part-time for a district special classes. The school also has a Library, a Technology Lab, a Gymnasium, athletic fields, and a play area. The maintenance crew has a regular schedule of daily cleaning supplemented with special projects carried out during school breaks. There are two regular janitors and two part-time janitor/general maintenance staff. Two janitors work split shift and evenings cleaning classrooms on rotation. One janitor works during school hours arriving early to open the school. Part-time staff assists with clean-up and maintenance as needed. Janitor/Maintenance staff serve the entire district.

The District participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems. For the 2009-10 school year, the District budgeted \$18,000 for the Deferred Maintenance Program. This represents .5% of the District's general fund budget.

Public Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (i.e., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available at a workstation, and the ability to print documents.

"In the spirit of this community, our school has developed strategies for providing an excellent education that nurtures the whole child."

National Assessment of Educational Progress

The National Assessment of Educational Progress (NAEP) is a nationally representative assessment of what America's students know and can do in various subject areas. Assessments are conducted periodically in mathematics, reading, science, writing, the arts, civics, economics, geography, and U.S. history. Student scores for reading and mathematics are reported as performance levels (i.e., Basic, Proficient, and Advanced) and the participation of students with disabilities and English language learners is reported based on three levels (Identified, Excluded, and Assessed). Detailed information regarding the NAEP results for each grade level, performance level, and participation rate can be found on the NAEP Web page at <http://nces.ed.gov/nationsreportcard/>.

NAEP Reading and Mathematics Results: Grades 4 and 8

This table displays the scale scores and achievement levels on the NAEP for reading (2007) and mathematics (2009) for grades four and eight.

"Community involvement and commitment engender a positive and nurturing climate."

NAEP Testing Note: Only a sample group of California's schools and districts participate in the NAEP testing cycle. Therefore, students in any particular school or district may not be included in these results. NAEP results reflect state level student performance and is not reflective of either the district or the individual school. Also, comparisons of student performance on the NAEP and student performance on the STAR Program assessments cannot be made because there are key differences between the two testing programs. For example, the two assessments test students in different grade levels and the tests are based on a different set of standards. For more information on the differences between the NAEP and STAR, please visit CDE's NAEP Web page at www.cde.ca.gov/ta/tq/nr/.

STAR Results for All Students: Three-Year Comparison

The Standardized Testing and Reporting (STAR) results are reported as performance levels in order to compare student achievement to state standards. The five performance levels are: **Advanced** (*exceeds state standards*); **Proficient** (*meets state standards*); **Basic**; **Below Basic**; and **Far Below Basic**. Students scoring at the Proficient or Advanced level meet state standards in that content area. The tables below show the percentage of students that scored at Proficient or Advanced levels in English-language arts, mathematics, science, and history-social science.

Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program consists of several key tests, including the California Standards Test (CST), California Modified Assessment (CMA), and California Alternate Performance Assessment (CAPA). The CSTs are multiple choice tests in English-language arts, mathematics, science, and history-social science for varying grade levels. Some grade levels also participate in an essay writing test.

The CSTs are used to determine students' achievement of the California Academic Content Standards. These standards describe the knowledge and skills that students are expected to learn at each grade level and subject.

The CMA is a modified assessment for students with disabilities who have an individualized education program (IEP). It is designed to assess those students whose disabilities prevent them from achieving grade-level proficiency on an assessment of the content standards with or without accommodations.

The CAPA is an alternate assessment for students with significant cognitive disabilities who are unable to take the CST with accommodations or modifications or the CMA with accommodations.

For a complete report on all tests, participation, groups, and their scores by grade level, please visit <http://star.cde.ca.gov/>. To learn more about the STAR Program, please visit the guide at www.cde.ca.gov/ta/tg/sr/documents/starpkt5intrpts.pdf.

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. The API is a score on a scale of 200 to 1,000 that reflects a school's, district's or a student group's performance level, based on the results of statewide testing. An API score of 800 is set as the statewide target.

Each annual API reporting cycle includes a Base and a Growth API. The Base API starts the reporting cycle and is released approximately a year after testing (ie. The 2008 Base is calculated from results of statewide testing in spring 2008 but is released in May 2009). The Growth API is released after the Base API but is calculated from test results from the following year (ie. The Growth API is calculated from results of statewide testing in spring 2009 and released in August 2009). Therefore, for the 2008-09 API reporting cycle, the 2008 Base indicator and 2009 Growth indicator are used. To learn more about API, please visit the API information guide at www.cde.ca.gov/ta/ac/ap/documents/infoguide08.pdf and the API overview guide at www.cde.ca.gov/ta/ac/ay/documents/overview09.pdf.

■ Data are reported only for numerically significant groups.

API Testing Note: Assessment data are reported only for numerically significant groups. To be considered 'numerically significant' for the API, the group must have either: (1) at least 50 students with valid test scores who make up at least 15% of the total valid scores, or (2) at least 100 students with valid test scores.

Academic Performance Index Ranks

Schools are ranked in ten categories of equal size, called deciles, from 1 (lowest) to 10 (highest) based on their API Base reports. A school's "statewide rank" compares its API to the APIs of all other schools statewide of the same type (elementary, middle, or high school). A "similar schools" API rank reflects how a school compares to 100 statistically matched similar schools. This table shows the school's three-year data for statewide API rank and similar schools API rank, for which information is available.

Academic Performance Index Growth

This table displays, by student group, the actual API change in points added or lost for the past three years, and the 2009 API score.

Adequate Yearly Progress

The No Child Left Behind (NCLB) Act requires that all schools and districts meet Adequate Yearly Progress (AYP) requirements. To meet these standards, California public schools and districts must meet or exceed criteria in four target areas:

1. Participation rate on statewide assessments in English-language arts and mathematics
2. Percentage of students scoring proficient on statewide assessments in English-language arts and mathematics
3. API scores
4. Graduation rate for high schools

The table displays whether or not the school and district made AYP overall and met each of the AYP criteria for 2008-09. For more information, please visit www.cde.ca.gov/ta/ac/ay/.

Federal Intervention Program

Schools and districts that receive Title I funding can enter Program Improvement (PI) if they fail to meet AYP over two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). With each additional year they don't meet AYP, they advance to the next level of intervention. This table displays the 2009-10 Program Improvement status for the school and district. California Physical Fitness Test

Each spring, all students in grades 5, 7, and 9 are required to participate in the California Physical Fitness Test (PFT). The State Board of Education designated the *Fitnessgram*® as the PFT for students in California public schools. The test measures six key fitness areas:

1. Aerobic Capacity
2. Body Composition
3. Flexibility
4. Abdominal Strength and Endurance
5. Upper Body Strength and Endurance
6. Trunk Extensor Strength and Flexibility

The goal of the *Fitnessgram*® is to assist students in establishing lifetime habits of regular physical activity. The table shows the percentage of students meeting the fitness standards for the most recent testing period. For more detailed information on the California PFT, please visit www.cde.ca.gov/ta/tg/pf/.

No Child Left Behind Compliant Teachers

NCLB requires that all teachers of core academic subject areas be "highly qualified." In general, for a teacher to be considered highly qualified, they must have a bachelor's degree, an appropriate California teaching credential, and have demonstrated competence for each core subject he or she teaches. The table displays data regarding NCLB compliant teachers from the 2008-09 school year. For more information on teacher qualifications related to NCLB, please visit www.cde.ca.gov/nclb/sr/tg.
