

Loma Prieta Elementary Enrichment 2018

Physics & Chemistry

Fun with Irvin

\$144 **2:50 - 4 p.m.** **Take this to the office with a check to OSE**
February 2, 9, 16, March 2, 9, 16, 23 + 30

8 Fridays **Meet at flagpole or outside office** **Grades 2-5**
Classes will be held at the north campus temporary community center.

Bring 2 Pencils and a Composition Book

From the award winning nonprofit education foundation, Outdoor Science Exploration & Classroom Science Fun
A Master Science Teacher with OSE/CSF, Irvin teaches 150+ popular science classes every year.

Active learning hands-on physics, chemistry and life, nature & earth sciences

Nurturing your child's talent with essential concepts, special activities & higher level thinking skills

EACH class series every year has NEW activities.
MORE classes, 25+ Summer field trips, and Yosemite backpacking are being planned.

Science is an essential part of elementary school education. We use the most effective approach with student centered active learning & advanced lessons. This has many clear benefits especially when natural curiosity is abundant and success is important. **Irvin Lindsey** is an accomplished, award winning, master science teacher in practice at elementary through college levels. In 1997, he led the creation of OSE/CSF. Irvin has state credentials and many years of distinguished teaching, and he sees the big need for & benefits of proficient science education.

By using this form, you agree not to hold the school, district, Outdoor Science Exploration, or the teacher liable for any injuries incurred during the class. Tuition is refundable up to a week before the 1st class. Students come prepared to be focused and disciplined out of respect for others. If behavior is a problem, at our discretion a student will no longer attend, and tuition is lost. Unless permission is granted at least a week ahead, due to demand there are no class visitors or tryouts. Sometimes photos or videos are taken for family gifts, flyers, quality control, our website and scrapbook. Contact information lets you know about our science programs. We have the utmost respect for privacy.
