Dear Parents and Guardians,

With the completion of the restoration project, our drop-off/pick-up and parking traffic flow has changed. As you read through the new traffic flow, please be sure to refer to the map. **Please do not park in the bus loading zone – ever!**

**As you enter the driveway from Summit Road**

Lane #1 – Loma Prieta drop-off/pick-up  
Lane #2 – CT English drop-off/pick-up

**At the top of the entry driveway**

Loma Prieta drop-off/pick-up moves to lane #2 and proceeds to the curb at the drop-off/pick-up location. Lane #1 becomes a through traffic lane.  
CT English drop-off/pick-up moves to lane #5 and proceeds to the curb beyond the flagpole for drop-off/pick-up.  
Lane #3 is for parking in those spots only – not for through traffic.  
Lane #4 is for through traffic only – do not stop in lane #4.

**Once you've dropped-off/picked-up**

Loma parents move away from the curb and proceed to the exit.  
CT English parents move to lane #4 and proceed to the exit.

**Exit from lane #1 to travel west on Summit Road. Exit from lane #2 to travel east on Summit Road.**

**Please see the attached map.**

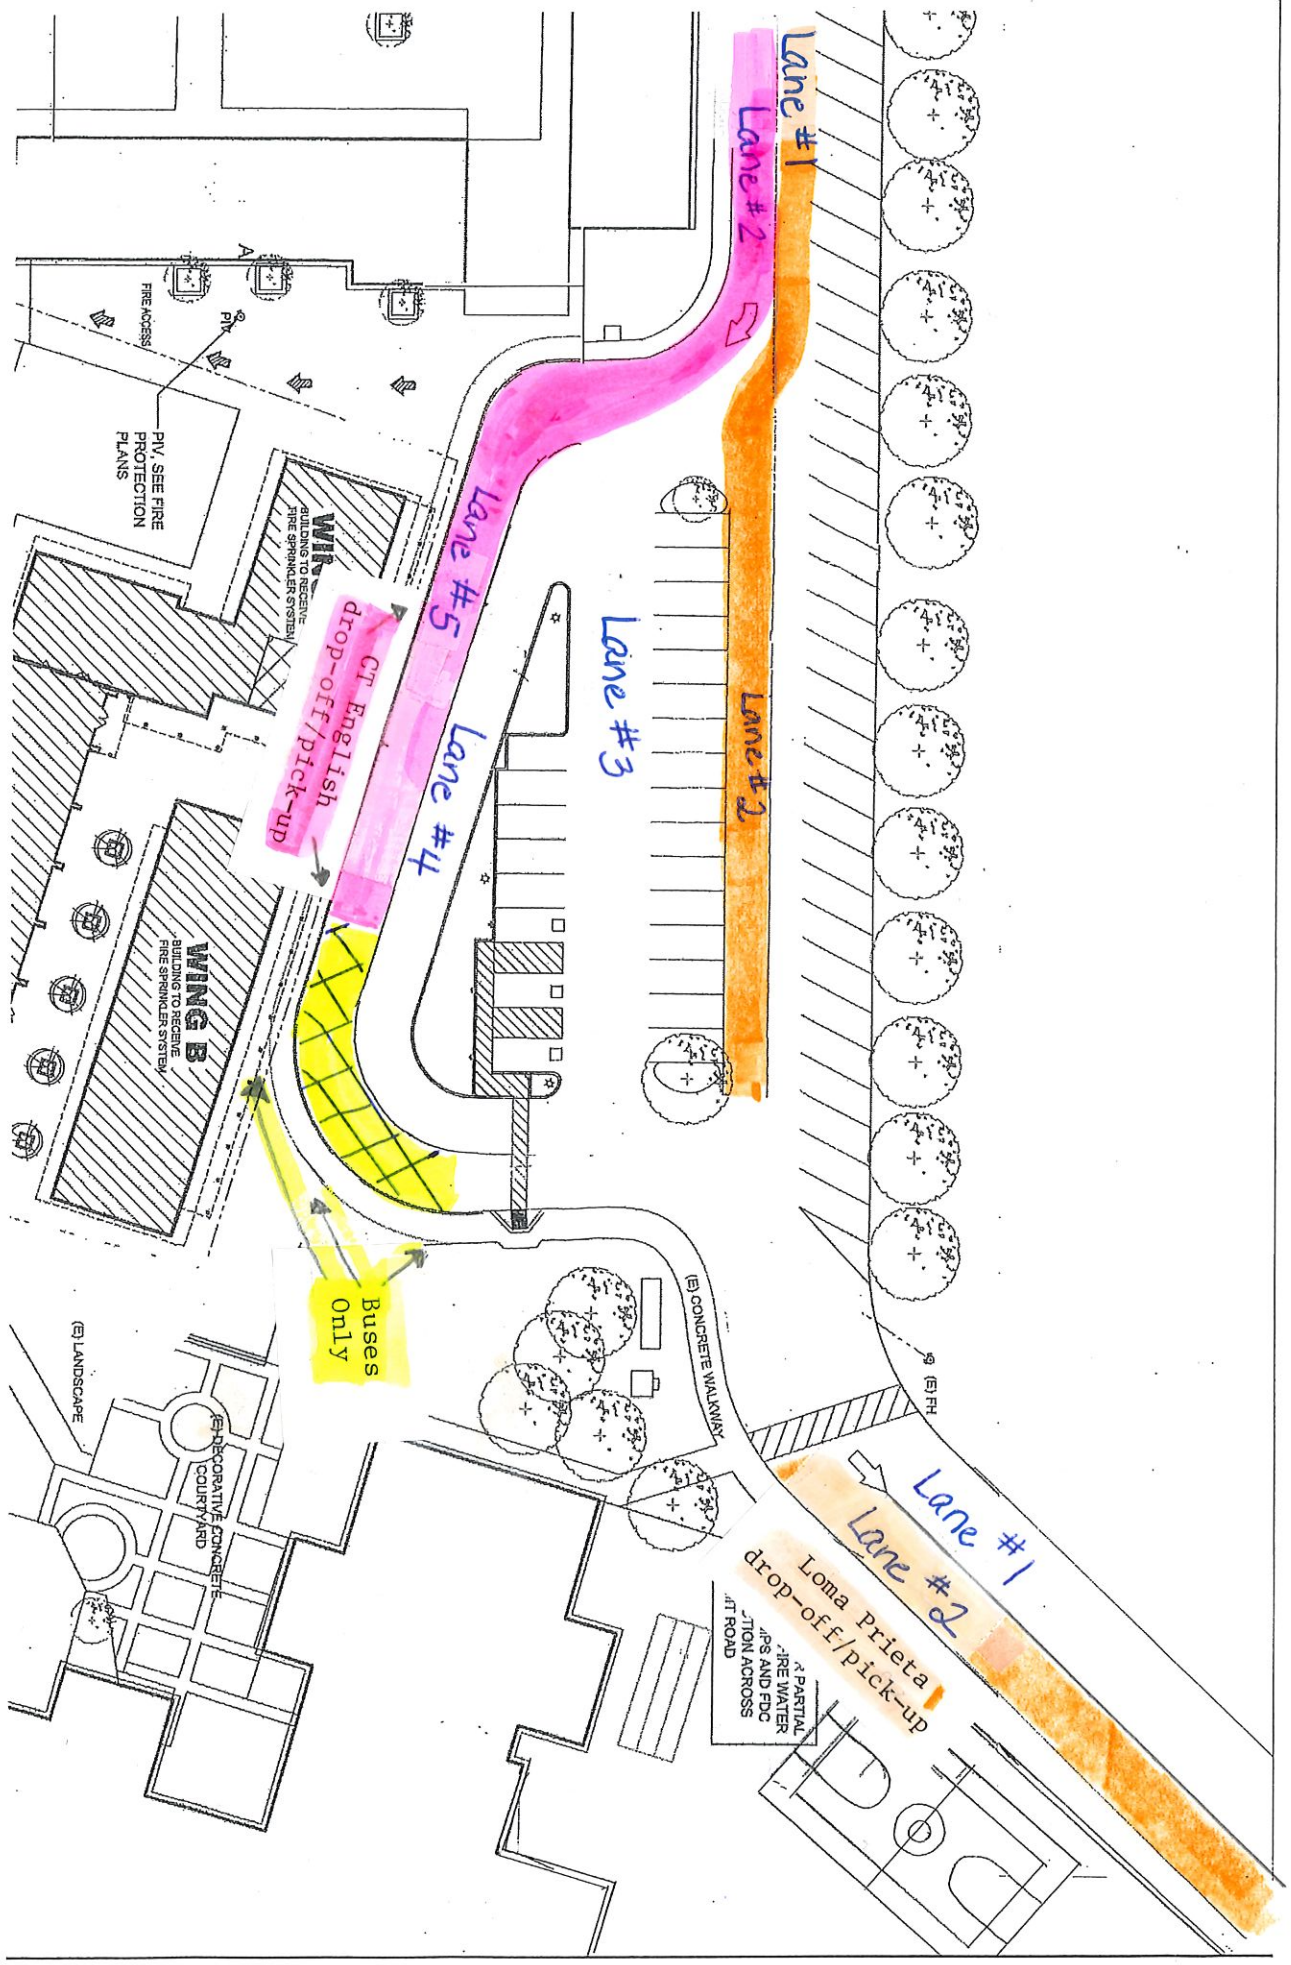

Thank you for your cooperation. We are hoping that this revised plan will ensure student safety while also assisting parents in making drop-off/pick-up as efficient as possible.

Sincerely,

A handwritten signature in black ink that reads "Lisa Fraser".
